Dear Laurel,

We are writing to express our support for the proposed riparian revegetation of White Creek on our property in Wooden Valley. We will work closely with your organization on the project which will improve habitat for the steelhead trout by providing additional shade along White Creek. We understand that the project will occur in the 2008-2009 timeframe if grant funding is approved by the California Coastal Conservancy.

Sincerely,

Mischelle Haas-Martin

Ranch Supervisor

Dear Laurel,

We are writing to express our support for the proposed design, environmental review and permitting for removal of the fish migration barrier on our property on Wooden Valley Creek. We will work closely with your organization on the design and analysis. We understand that the design will occur in the 2008-2009 timeframe if grant funding is approved by the California Coastal Conservancy.

Sincerely,
